Medicinal Qualities of the Apple.

The apple is such common fruit that very few person are familiar with its remarkably efficacious, medidicinal properties. Everybody ought to know that the very best thing they can do is to eat apples just be-fore retiring for the night. Persons uniniatiated in the mysteries of the fruit are liable to throw up their hands in horror at the visions of dyspepsia which such a suggestion may summon up, but no harm can come to even a delicate system by eating of ripe and juicy apples just before going to bed. The apple is an excellent brain food, because it has more phosphoric acid in easily digestible shape than any other vegetable known. It excites the action of the liver, promotes sound and healthy sleep, and thoroughly disinfects the mouth. This is not all. The apple agglutinates the surplus acids of the stomach, helps the kidney secretions and prevents calculous growth, while it obviates indigestion and is Hopper, a substantial old farmer, rods one of the best preventives known of disease of the throat.

COLUMBUS, O., Dec. 4 .- As the result of the conference between State Food Commissioner F. B. McNeal and his Cincinnati assistant, Mr. Luebbing, here, Commissioner McNeal has issued an order to all the subordinates of the department to push all cases of prosecu-tion for violation of the pure food laws to a finish in the courts.

"I have never sanctioned the com-promising of cases out of court." said Dr. McNeal, "on the contrary, I have directed that no money should be received except what was receipted on the magistrate's docket, but I did instruct my employes to allow the dismissal of cases where there were mitigating circumstances, or where the de-fendent would assist in bringing other violators to justice. Such a case was

Harlem Life. The Columbian Half Dollars.

The Columbus souvenir half dollars are not medals or "tokens," but good money, and are legal tender to the amount of \$10 in any one payment. There is a large demand for them. The coinage was as follows: In 1892, 950,-000 pieces, value \$475,000; in 1893, 4,052,105 pieces, value \$2,026,052.50; total, 5,002,105 pieces, value \$2,501,-052, 50. The coins now being issued by the treasury are of the 1893 coinage. The Columbian (or Isabella) quarter dollars coined under the law of March 3, 1892, are likewise a legal tender and redeemable. There were coined only 40,023 pieces, value \$10,005.75. These were all issued to the board of lady managers and by them disposed of. The 1892 Columbian coins, being fewer in number, are more valuable as pocket pieces or to collectors than the 1893 OUESTIONS FOR TEACHERS.

CATHERINE HARRISON, WITCH. Paper on the Enrly Witch Lore of Con-

Dr. C. J. Hoadly read a paper on 'Catherine Harrison, Witch," at a meeting of the Connecticut Historical society. Dr. Hoadly said that while Catherine Harrison was not executed two were undoubtedly executed for witchcraft in Connecticut, and there were others about whom there might be some doubt. This community was not swept by the superstition as were some parts of Massachusetts, but there were those here who held to it. Catherine Harrison was a house serv-

ant before her marriage, and one of the daughters of the house where she worked made oath that she was a "notorious liar, a Sabbath breaker and a fortune teller." The depositions said she had caused sickness to some people, death to others, had an unholy influence over animals, had been seen to appear as a calf and change back to her own shape, and that her form or face had frequent

ly appeared at people's Tedsides and other unlikely places. At this trial she was not convicted. She was arrested again in May, 1669, and again commit ted to jail. At the following term of court she was indicted, pleaded not guilty and was tried before a jury. This jury then failed to agree, and she was remanded to jail until court should convene again in the fall. At that term the jury rendered a verdict of guilty, but the court was not satisfied. It obtained an expert opinion on witchcraft from some ministers, and still not being satisfied referred the matter to the general court. She remained in prison until May, 1670, when the general court released her on the payment of the "just fees" of the trial and on condition she should leave Catherine Harrison left the state and

went to Westchester, N. Y., but her reputation preceding her the inhabitants complained to the governor. For some time she was placed under bonds for good behavior. She was afterward released.—Hartford Times.

storied or low constructions. Some of these are built like square towers four or five stories high, with no outside windows save at a considerable distance above the ground and no outside projections by which thieves might climb up. These establishments are called pawnshops, but they appeared to me more to resemble our banks where we place deeds and other valuables for safety. I understand it is usual among the Chinese to deposit their possessions of value, when not in use, in these establishments. The people also store there during summer their winter clothing, and loans may be obtained against the goods stored. To have dealings with a pawnshop is in no way considered derogatory to a Chinese gentleman's dig-nity.—Florence O'Driscoll, M. P., in
